

PRODUCT DESCRIPTION

Both modern and industrial, the angular lines of these aluminum spun shades refresh a classic concept in a clean, contemporary execution. The shades - available in Brick, Black, and a Pale Gray powder coated finish, feature multiple joints and peaks in their form and at their bottom intentionally return inward. The shape at the bottom is not only attractive, but a cleverly conceived method to support a wire network of Black steel that forms a cage without visible hardware. Illuminated from within the spun metal shades in 3 varying sizes and shapes, the LED lamp provided shines light below and disperses through the wireway creating a beautiful radiating light pattern.
